Set-up Diagram...please use the space below to indicate where you would like equipment on the stage or in your session room:

- As the choir is appointed the “Ambassadors of the Pécs, European Capital of Culture 2010”, it is important to have a projector/beamer, to show a 5 minutes long film (will be on DVD), so a laptop will be also necessary.
- The choir has 38 singers, and as we do not know the width of the risers, we leave it on you to find out the number of the risers, allowing enough space for the singers (10 persons on each step). The risers should **not** form a semicircle, just a frontal line, having the music stand in front of them, in the middle.
- The piano is fine on the right side.
- Most of the pieces are a cappella, Except the last three pieces on the program-list, when Dr Lakner is playing the violin, and two of the singers will play the accordion and clarinet. They bring the instruments with. If those particular singers cannot come (possible), then they use the piano.
